

Solid Surface & Composite Care Kit

Features & Benefits

- Solid Surface Care Kit includes everything required to look after a Solid Surface Worktop and keep it looking as good as new.
- Unlike most other work surfaces, Solid Surface can be repaired. So little accidents, stains or scratches can usually be removed with relative ease.

The kit includes the following:

Care & Maintenance Guide –
Detailed instructions of how to care for your solid surface worktop.

Solid Surface Rejuvenate –
Use to remove persistent stains, scratches and to generally renovate your worktop if looking scratched and dull.

Solid Surface Worktop Cleaner –
Use for everyday cleaning of the work surface and for the final clean after installation.

Sanding foam pad 180 grit –

Use on severe stains.

Abrasive Disc Pad White, Grey and Maroon –

Use on minor scratches and stains. Also use to finish the worktop joint after the sand papers have been used.

Microfibre cloth –

Use with Solid Surface Worktop Cleaner for everyday cleaning.

Disposable Gloves –

Use with Solid Surface Rejuvenate – always wear rubber gloves when using chemicals

Solid Surface Rejuvenate

Use on: Corian & Acrylic Worktops

Features:

- Solid Surface Rejuvenate will renovate acrylic and polyester worktops for example, Corian, Slab Tech, HI-MAC'S, Earthstone, Avonite etc.

- It is designed to remove minor scratches from solid surface worktops and leave the worktop as good as new. Solid Surface Rejuvenate contains mild abrasive particles which when coupled with a white nylon pad will buff up the work surface.
- Use as and when required on worktop areas that are subjected to a lot of wear and tear. Or use to renovate your whole top when it becomes scratched and dull.
- Unika Solid Surface Rejuvenate is a ready to use specialist cleaner. that will renovate the work surface safely.

Directions:

- Shake well before using.
- Apply a bead of cream over the affected area of work surface.
- With the use of a wet white nylon pad, polish the cream into the surface using a circular motion. If necessary polish over the whole work surface.

Always use the least abrasive pad possible to remove marks. Start with the white pad, rubbing the stain in a circular motion. If this is ineffective, progress to the more abrasive Grey Pad and finally the Maroon Pad. Always finish by using the White Pad in conjunction with Rejuvenate Cream.

- Clean the residue with a clean cloth and spray the affected area with Unika Solid Surface Worktop Cleaner and wipe off with a microfibre cloth.
- For the most severe stains, it may be necessary to use the light grey sanding pad. Remove the scratch then follow the above process to restore the work surface to its former finish.

Solid Surface & Composite Care Kit

Solid Surface Worktop Cleaner

Use on: Corian & Acrylic Worktops

Features:

- Unika Solid Surface Worktop Cleaner is a ready to use everyday specialist cleaner, which tackles everyday grease and grime.
- Antibacterial care
- Cleans worktop safely – it is non hazardous, biodegradable and solvent free
- Cleans worktops without leaving smears to a sparkling clean finish.

Directions:

- Spray directly onto work surface. Use a clean dry soft cloth to dry surface and buff to a finish.
- It is always best to clean up spills as they occur. However if any stains need further attention, allow Unika Solid Surface Cleaner 30 seconds contact time before wiping and rinsing.

Retailer Opportunity:

Sell alongside every Solid Surface Worktop Sale.

A good quality Worktop Cleaner and Repair Cream is necessary to maintain a Solid Surface worktop.
